UNIVERSITY OF MAINE AT MACHIAS

Cover photo: Mark Bellavance

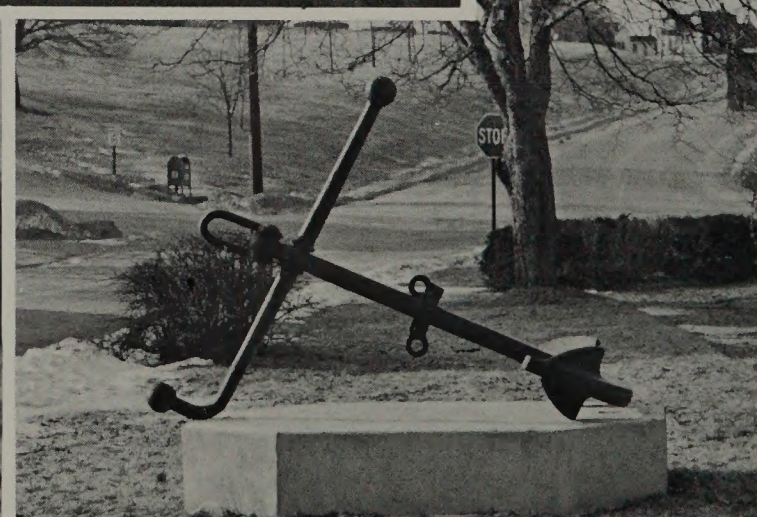

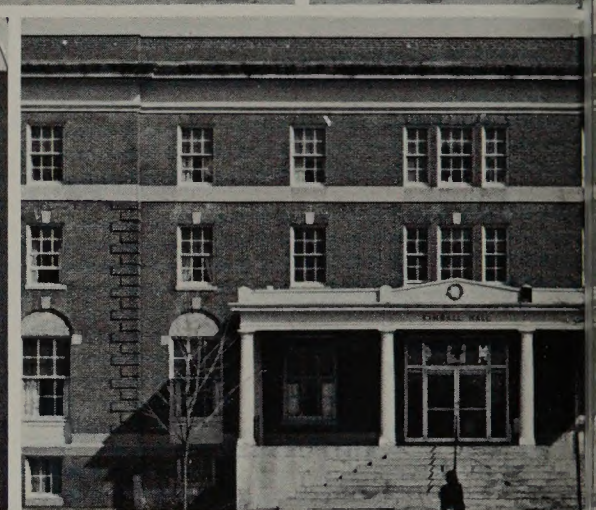

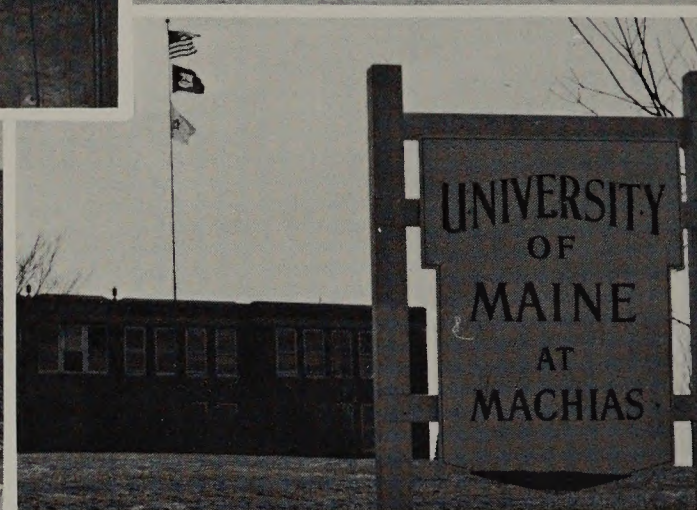

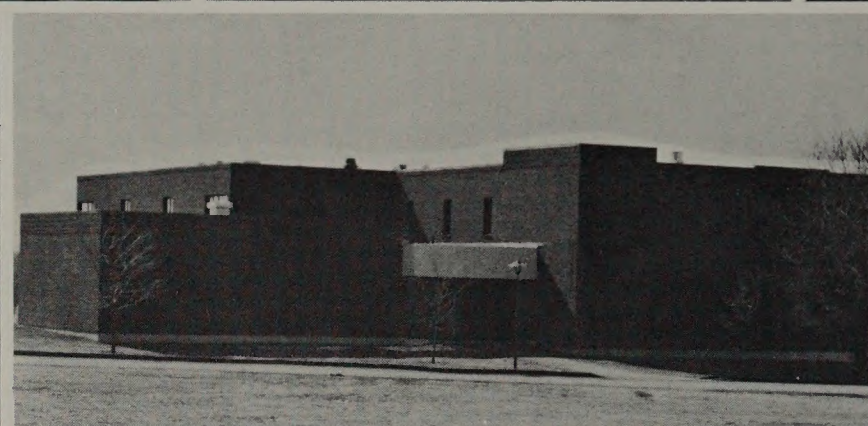

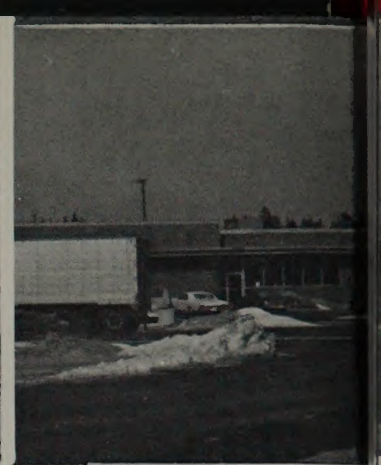

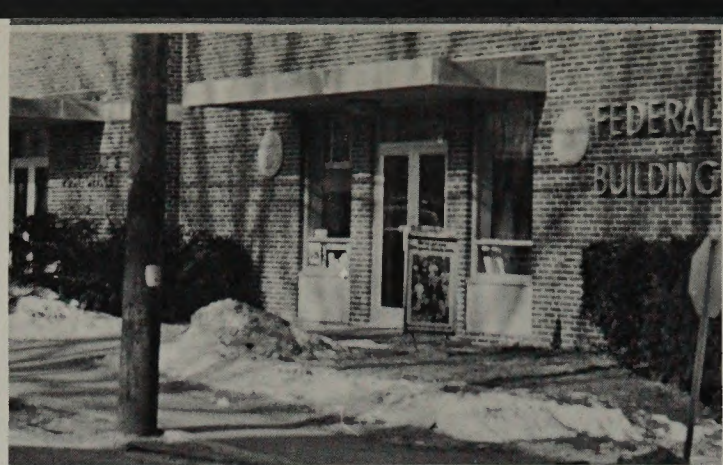

For twenty years Dean Reynolds has been actively involved with the students of this college. A college is designed to serve the needs and desires of the students. Dean Reynolds is a personal extension of the college, extending himself to help the students in their educational objectives.

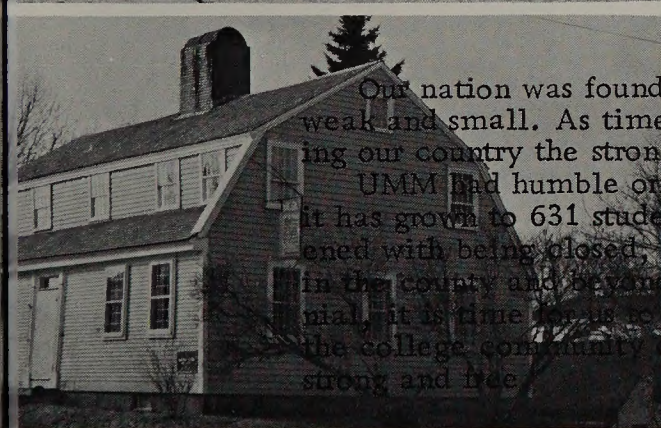

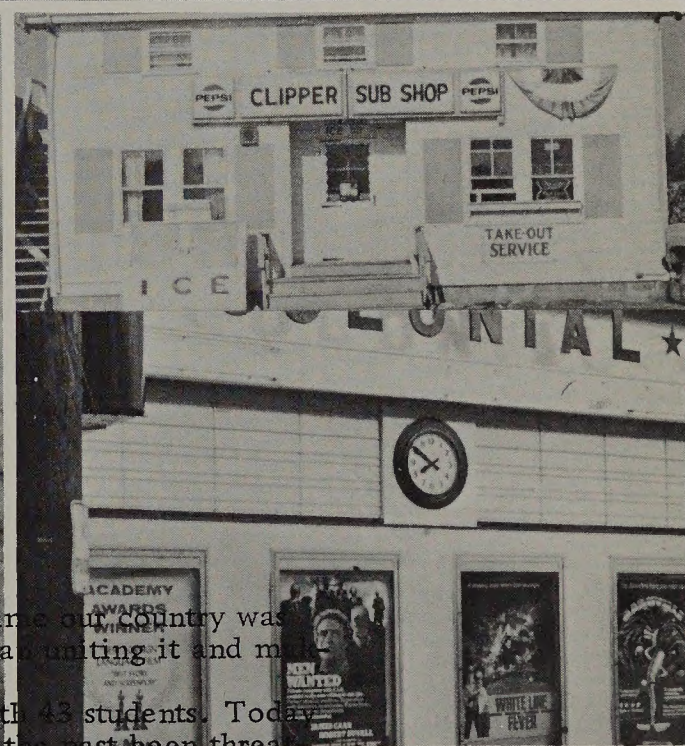

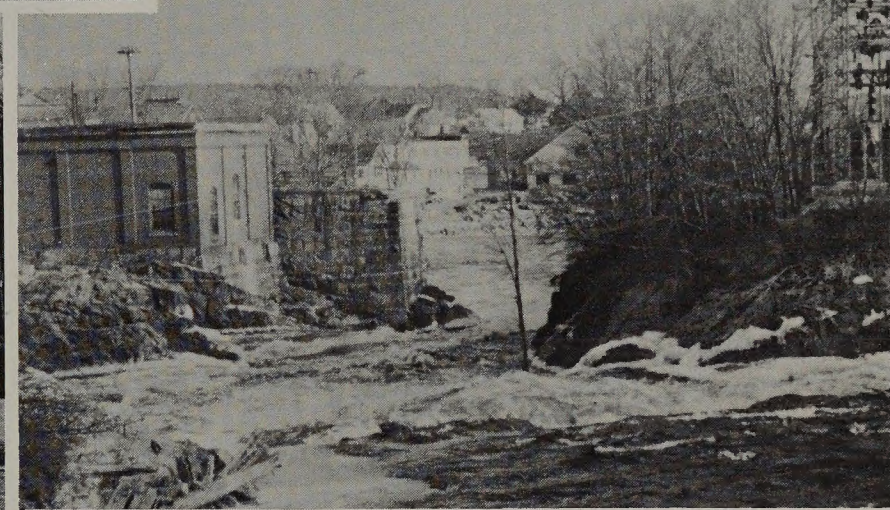

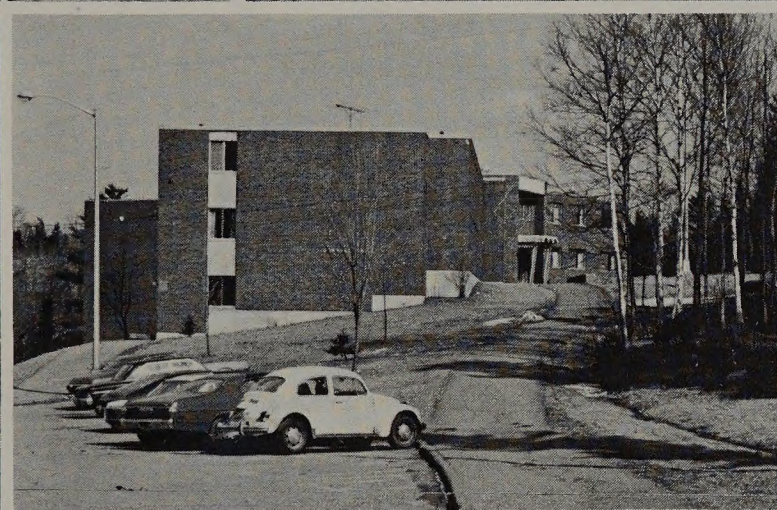

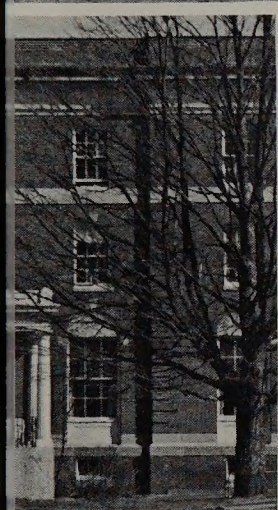

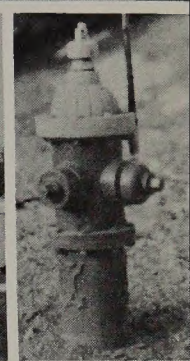

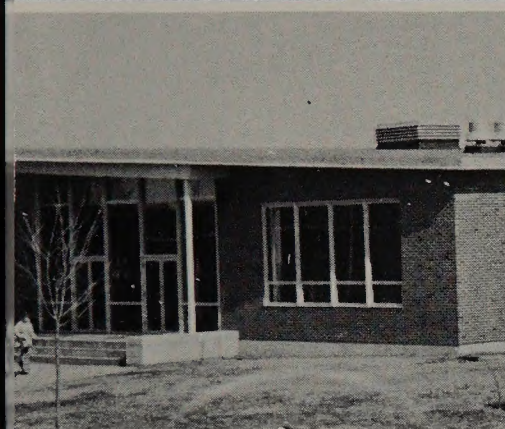

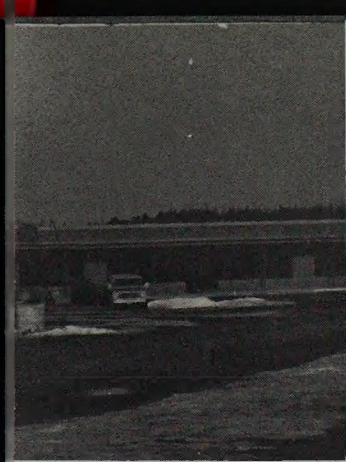

Dean Reynolds has served as a liaison between the administration and the students. His door is always open to us. Many times long after the college staff has gone home, the light in Dean Reynolds's office will be on, and he will be hard at work for the benefit of all at the college.

Although Dean Reynolds has been recognized in the past for his dedication and hard work for the students of this college, we feel that he can not be thanked enough. The Washingtonia staff appreciates his endless energy in helping the students, his patience and kindly understanding of students' problems, and the qualities he possesses which we admire and respect.

We wish to acknowledge his service by dedicating the 1976 BICENTENNIAL WASHINGTONIA to him.

Our nation was founded 200 years ago. For a long period of time our country was weak and small. As time went on, more people came to America uniting it and making our country the strongest in the world.

UMM had humble origins. In September, 1910, it opened with 43 students. Today it has grown to 631 students and ten buildings. The school has in the past been threatened with being closed, but through the united action of the students, faculty, people in the county and beyond, this was avoided. As our country celebrates it's Bicentennial, it is time for us to ponder and make sure that we as individuals and members of the college community can continue to meet America's demands to keep our country strong and free.

During the course of everyday life, we take many things for granted. Mrs. Alley has served the students of this campus for ten years. It is rarely that she is thanked for her hard work and dedication. Many times you will find her happily serving someone in the library. She diligently does her job to provide the best possible service to those using the library. We of the staff of the 1976 WASHINTONIA wish to express our gratitude and appreciation to her for her loyal devoted service.

SENIORS

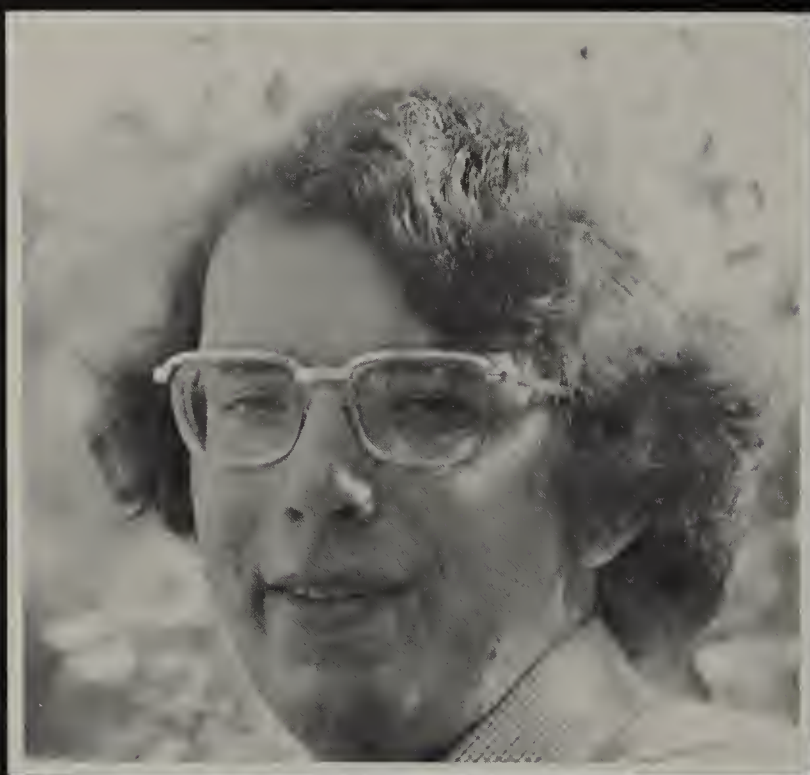

As time went on America became settled. The people became restless and curious about the horizons beyond. Our seniors have been settled here and have reaped the many benefits of the college. After gaining some knowledge and experience, they are now ready to explore the frontiers of life.

UNDERCLASSMEN

The settlers came to America with expectations to start a new life in a strange land. Underclassmen come to college with expectations for an exciting new life. The settlers were given opportunities and made the best of them. Now it is up to the underclassmen to take advantage of all the many opportunities college offers and to use these to their best possible advantage.

Free expression is a necessary part of a democratic society. UMM's Cultural Affairs Program offers a wide and varied range of expression. The Arts play an important part in our growth. The Arts have grown these first two hundred years and should continue to grow in American Society. Students involved in cultural affairs benefit their own personal growth.
